Figure 3: Life expectancy at birth, 95% confidence intervals for Council areas, 2010-2012 (Males and Females)

Ordered by lowest male life expectancy to highest

Glasgow City

70

For 2010-2012, there was some evidence that females in Orkney enjoyed slightly higher life expectancy than males. However, the difference only just achieved significance at the lowest conventional level (5%) and the evidence cannot be regarded as conclusive.
