1 Rates for age groups 15-19 and 40-44 include births at age under 15 and 45+ respectively. The all ages rate includes cases where the mother’s age was not stated and is calculated using the number of women aged 15-44.

2 This includes single, widowed and divorced.

3 2008 figures have been recalculated using the marital status estimates for 2008 that were published in October 2009. In addition,
