### Footnotes:

- 1 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).
- 2 The terms used to describe tenure are defined as:  
Owned: either owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership).  
Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.  
'Rented from the Council' refers to Rented from Council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.  
Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.  
'Living rent free' could include households that are living in accommodation other than private rented.
- 3 The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household. The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).
- 4 The term 'in employment' includes employed and self-employed the week before the Census, excluding dependent children who are working.
- 5 Car or van availability includes any company car or van if available for private use.
- 6 NS-SeC stands for National Statistics - Socio-economic Classification.
- 7 NS-SeC not classified includes full-time students, people whose occupation has not been coded and those who cannot be allocated to an NS-SeC category.
- 8 The term 'care' covers any unpaid help, looking after or supporting family members, friends, neighbours or others because of long-term physical or mental ill-health or disability or problems relating to old age.
- 9 General health refers to health over the 12 months prior to Census day (29 April 2001).
- 10 'Number of adults in employment' means all adults who are working whether full-time student or not.
- 11 It is possible that form-fillers on housing benefit may have ticked 'living rent free' in response to the Census question on 'owns/rents'. Households recorded as living rent free are not analysed by type of landlord in this table. Users who wish to count these households by landlord and, possibly, make adjustments to this table can do so using tables UV91, UV92, T54 & T55.

*Footnotes:*

1 *The terms used to describe tenure are defined as:*

*Owned: either owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership).*

*'Other social rented' includes rented from Council, Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.*

*'Rented from the Council' refers to Rented from Council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.*

*Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.*

*'Living rent free' could include households that are living in accommodation other than private rented.*

2 *The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household.*

3 *Car or van availability includes any company car or van if available for private use.*

4 *A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).*

5 *It is possible that form-fillers on housing benefit may have ticked 'living rent free' in response to the Census question on 'owns/rents'. Households recorded as living rent free are not analysed by type of landlord in this table. Users who wish to count these households by landlord and, possibly, make adjustments to this table can do so using tables UV91, UV92, T54 & T55.*
