Footnotes:

1 Given the approach taken to estimating underenumeration in the 2001 Census, it is not appropriate to compare the 2001 Census results directly with the 1991 Census results.

For more information see Introduction under 'Comparisons with the 1991 Census'.

2 Area is on Census Day 29 April 2001.

3 'Number of students away from home' is the number of students and schoolchildren in full-time education who would reside in the area were they not living away from home in term-time.

Data for the number of students away from home was not available from the 1991 Census.

4 'Daytime' population is calculated by subtracting those living in the area but working or studying outside the area, and adding those living outside the area but working or studying inside the area, to the resident population.
