Footnotes:

1 A 'non step-family' is one where all children are children of both members of the married or cohabiting couple. A 'step-family' is one where there is a child (or children) who belongs to only one member of the married or cohabiting couple. Where there are no children in a couple family, they will be recorded under non-step families.

2 A dependent child is a person in a household aged 0 to 15 (whether or not in a family) or a person aged 16 to 18 who is a full-time student in a family with parent(s).

### Footnotes:

- 1 The term 'area' is used to define the particular geographical area level being shown in the table. So, in the case of a table for a ward, this will mean the term 'area' translates to the name of that ward.
- 2 Net migration within the UK (Inflow minus Outflow) subtracts the number of people who have moved out of the area, to elsewhere within the UK (Outflow) from the number of people who have moved into the area, from elsewhere within the UK (Inflow). It does not include people who have moved to or from outside the UK.
- 3 One year ago is one year before Census day (29 April 2001).
- 4 Inflow is not an exact count of people moving into an area as it does not include people who had no usual address one year ago who did not live within the area.
- 5 Outflow is not a count of all people moving out of an area as it does not include people who have moved outside the UK.
- 6 In Scotland 'associated area' refers to the Council Area for tables at Ward, Postcode Sector or Output Area level. For all other geographical areas the 'associated area' is Scotland.

- 2 Persons under one year old take the migration characteristics of their next of kin, i.e. a household containing a child under one year old where all other people in the household have not moved in the last year is recorded as 'whole household lived at same address one year ago' rather than a partly moving household.
- 3 A wholly moving household is one where all members of the household have moved from the same address. A partly moving household is where one or more members of the household have moved in the last year but not all members have moved from the same address.
- 4 One year ago is one year before Census day (29 April 2001).

**Footnotes:**

1 The terms used to describe tenure are defined as:

Owned: either owned outright, owned with a mortgage or loan, or paying part rent and part mortgage (shared ownership).

Other social rented includes rented from Registered Social Landlord, Housing Association, Housing Co-operative and Charitable Trust.

'Rented from the Council' refers to Rented from Council (local authority)/Scottish Homes in Scotland and Northern Ireland Housing Executive in Northern Ireland.

Private rented: renting from a private landlord or letting agency, employer of a household member, or relative or friend of a household member or other person.

2 'Living rent free' could include households that are living in accommodation other than private rented.

3 Pensionable age at the time of the Census (29 April 2001) was 65 for men and 60 for women.

4 It is possible that form-fillers on housing benefit may have ticked 'living rent free' in response to the Census question on 'owns/rents'. Households recorded as living rent free are not analysed by type of landlord in this table.

Users who wish to count these households by landlord and, possibly, make adjustments to this table can do so using tables UV91, UV92, T54 & T55.
