**Footnotes:**

1 For the Census, part-time is defined as working 30 hours or less a week. Full-time is defined as working 31 or more hours a week.

2 Cohabiting couples includes same sex couples.

3 The living arrangements variable is different to marital status. It combines information from both marital status and the relationship matrix. Therefore a person living as part of a 'cohabiting couple' could in fact be married to (someone else) but will not appear as married or separated in this classification.

4 'Employee' and 'Self-employed' exclude full-time students.

5 'Unemployed' excludes full-time students.

6 'Economically active full-time student' comprises full-time students aged 16 to 74 who are in employment or unemployed.

*Footnotes:*

1 NS-SeC stands for National Statistics - Socio-economic Classification.

2 'Not classifiable for other reasons' includes people whose occupation has not been coded and those who cannot be allocated to an NS-SeC category.

3 In the NS-SeC classification, all full-time students are recorded in the 'full-time students' category regardless of if they are economically active or inactive.

4 For long-term unemployed year last worked is 1999 or earlier.
