

## Archived Postcode Extract (2012-2 to 2015-2)

The Postcode Extract has been compiled for users by our Geography team. It relates both current and terminated postcodes in Scotland to a range of statutory, administrative, electoral and other area geographies.

**Please note:** The files below are Zipfiles or Adobe Acrobat Portable Document Format (PDF), the following files are quite large so may take a few minutes to download.

### Overview of Corrections and Revisions affecting the Postcode Extracts

#### 2012/2

The extract database is created using systems on the database server, to run this system everyone should be out of the server. The 2012/2 extract was run during 2011 Output Area production so there was some access to the server which could have caused this issue.

#### 2014/1

##### [Mismatch between Council area and 2014 Health Board area \(PDF 85 Kb\)](#)

For the 2014/1 extract we added the 2014 Health Board area codes retrospectively to the database which has caused a slight mismatch between the Council and Health Board relationship on a small number of the records. This file contains a list of the deleted small user postcodes that were affected.
