

Refocusing NRS Statistical Teams

Demography– Kirsty MacLachlan

- Population and Migration
- Household Estimates and Projections
- Vital Events

Demography - 2011 census outputs

- Customer services
- 2011 census analyses/outputs
- Statistical Disclosure Control (SDC)
- Microdata
- Census data management
- origin-destination
- Web team (discussions ongoing re co-ordination of web content across National Records of Scotland by Strategy team)
- Table production
- Census Quality

Statistical Futures – Amy Wilson

National Statistics Institute (NSI) Planning

- This work is being taken forward jointly with the Office of the Chief Statistician and Performance in Scottish Government (SG). We are in the process of drawing up a plan but it is likely that will involve a number of staff across the stats areas in National Records of Scotland and Scottish Government inputting their experience and understanding of the wider NSI implications.

Statistical Futures - 2021 Census

- Methodology
- Stakeholder and Benefits Realisation
- Census Design
- Census Technologies
- Partnership/promotion

Data Resources – Gerry Donnelly

- NHS Central Register
- Geography
- Identity Assurance and Verification
- Sharing, Privacy, Ethics and Legal
- Linkage Projects
 - SILC Indexing
 - Scottish Longitudinal Study (SLS)
 - SHELS
