

**Subject:** Request for information regarding the average age of death where COVID-19 was the underlying cause of death.

**FOI reference:** 202100189670

**Date received:** 31 March 2021

**Date responded:** 22 April 2021

**Information requested:**

Could you please provide me details on the Statistics for the average age of death caused only by Covid-19 and with Covid-19.

**NRS Response:**

The information requested is attached in the accompanying tables which include a breakdown of the average age at death for deaths where Covid-19 was the underlying cause of death and for deaths involving Covid-19 with no pre-existing conditions.

In reference to your question, there are two different ways to interpret 'only Covid-19': deaths where Covid-19 was the underlying cause of death, and deaths where Covid-19 was mentioned and there were no pre-existing conditions. Both breakdowns are provided in the accompany tables.
