

Subject: Request for the mean, median and mode ages of deaths involving COVID-19 for week 11 of 2021.

FOI reference: 202100191047

Date received: 7 April 2021

Date responded: 15 April 2021

Information requested:

The NRS website states that 'In the week 15-21 March, 65 deaths were registered that mentioned COVID-19 on the death certificate, a decrease of 39 deaths from the previous week.'

The NRS website goes on to state 'Deaths from all causes are below average for this time of year for the second week in succession. There were 67 fewer deaths when compared with the five year average.'

What are the mean, median and mode ages of death involving COVID-19 that have been recorded for Week 11: 15-21 March 2021 (n = 65)?

NRS Response:

Enclosed is a copy of the information requested in the accompanying table which outlines the required summary statistics for age at death for all deaths involving coronavirus registered in Week 11 2021.
