

Subject: Request for the mean, median and mode ages of feaths involving COVID-19 for week 12 of 2021.

FOI reference: 202100191061

Date received: 7 April 2021

Date responded: 15 April 2021

Information requested:

The NRS website states that 'In the week 22-28 March, 61 deaths were registered that mentioned COVID-19 on the death certificate, a decrease of five deaths from the previous week.'

The NRS website goes on to state 'Deaths from all causes are below average for this time of year for the third week in succession. There were 33 fewer deaths when compared with the five year average.'

What are the mean, median and mode ages of death involving COVID-19 that have been recorded for Week 12: 22-28 March 2021 (n = 61)?

NRS Response:

Enclose in the accompanying table is a copy of the information requested which outlines the required summary statistics for age at death for all deaths involving COVID-19 registered in Week 12 of 2021.
