1. Public Records (Scotland) Act 2011

The Public Records (Scotland) Act 2011 (the Act) received Royal Assent on 20 April 2011. It is the first new public records legislation in Scotland since 1937 and came into force on 1 January 2013. Its primary aim is to promote efficient and accountable record keeping by named Scottish public authorities.

The Act has its origins in *The Historical Abuse Systemic Review: Residential Schools and Children's Homes in Scotland 1950-1995* (The Shaw Report) published in 2007. The Shaw Report recorded how its investigations were hampered by poor recordkeeping and found that thousands of records had been created, but were then lost due to an inadequate legislative framework and poor records management. Crucially, it demonstrated how former residents of children's homes were denied access to information about their formative years. The Shaw Report demonstrated that management of records in all formats (paper and electronic) is not just a bureaucratic process, but central to good governance and should not be ignored. A follow-up review of public records legislation by the Keeper of the Records of Scotland (the Keeper) found further evidence of poor records management across the public sector. This resulted in the passage of the Act by the Scottish Parliament in March 2011.

The Act requires a named authority to prepare and implement a records management plan (RMP) which must set out proper arrangements for the management of its records. A plan must clearly describe the way the authority cares for the records that it creates, in any format, whilst carrying out its business activities. The RMP must be agreed with the Keeper and regularly reviewed.

2. Progress Update Review (PUR) Mechanism

Under section 5(1) & (2) of the Act the Keeper may only require a review of an authority's agreed RMP to be undertaken not earlier than five years after the date on which the authority's RMP was last agreed. Regardless of whether an authority has successfully achieved its goals identified in its RMP or continues to work towards them, the minimum period of five years before the Keeper can require a review of a RMP does not allow for continuous progress to be captured and recognised.

The success of the Act to date is attributable to a large degree to meaningful communication between the Keeper, the Assessment Team, and named public authorities. Consultation with Key Contacts has highlighted the desirability of a mechanism to facilitate regular, constructive dialogue between stakeholders and the Assessment Team. Many authorities have themselves recognised that such regular communication is necessary to keep their agreed plans up to date following inevitable organisational change. Following meetings between authorities and the Assessment Team, a reporting mechanism through which progress and local initiatives can be acknowledged and reviewed by the Assessment Team was proposed. Key Contacts have expressed the hope that through submission of regular updates, the momentum generated by the Act can continue to be sustained at all levels within authorities.

The PUR self-assessment review mechanism was developed in collaboration with stakeholders and was formally announced in the Keeper's Annual Report published on 12 August 2016. The completion of the PUR process enables authorities to be credited for the progress they are effecting and to receive constructive advice concerning on-going developments. Engaging with this mechanism will not only maintain the spirit of the Act by encouraging senior management to recognise the need for good records management practices, but will also help authorities comply with their statutory obligation under section 5(1)(a) of the Act to keep their RMP under review.

3. Executive Summary

This Report sets out the findings of the Public Records (Scotland) Act 2011 (the Act) Assessment Team's consideration of the Progress Update template submitted for NHS Borders. The outcome of the assessment and relevant feedback can be found under sections 6 – 8.

4. Authority Background

NHS Borders is responsible for providing health care services to protect and improve the health of the people of the Borders and plan services for the local population. Other roles include to:

- focus on health outcomes and people's experience of their local NHS system;
- promote integrated health and community planning by working closely with other local organisations; and
- provide a single focus of accountability for the performance of the local NHS system.

Throughout its work, NHS Borders links with partners in care, such as patients, staff, local communities and disadvantaged groups, so that their needs and views are included in the design and delivery of local health services.

Borders NHS Board functions include:

- Strategy development: to develop a single local health plan which addresses health priorities;
- Resource allocation to address local priorities and determining how Borders resources are deployed to meet strategic objectives;
- Implementation of the local health plan;
- Performance management of the NHS Borders health system.

5. Assessment Process

A PUR submission is evaluated by the Act's Assessment Team. The self-assessment process invites authorities to complete a template and send it to the Assessment Team one year after the date of agreement of its RMP and every year thereafter. The self-assessment template highlights where an authority's plan achieved agreement on an improvement basis and invites updates under those 'Amber' elements. However, it also provides an opportunity for authorities not simply to report on progress against improvements, but to comment on any new initiatives, highlight innovations, or record changes to existing arrangements under those elements that had attracted an initial 'Green' score in their original RMP submission.

The assessment report considers statements made by an authority under the elements of its agreed Plan that included improvement models. It reflects any changes and/or progress made towards achieving full compliance in those areas where agreement under improvement was made in the Keeper's Assessment Report of their RMP. The PUR assessment report also considers statements of further progress made in elements already compliant under the Act.

Engagement with the PUR mechanism for assessment cannot alter the Keeper's Assessment Report of an authority's agreed RMP or any RAG assessment within it. Instead the PUR Final Report records the Assessment Team's evaluation of the submission and its opinion on the progress being made by the authority since agreeing its RMP. The team's assessment provides an informal indication of what marking an authority could expect should it submit a revised RMP to the Keeper under the Act, although such assessment is made without prejudice to the Keeper's right to adopt a different marking at that stage.

Key:

G	The Assessment Team agrees this element of an authority's plan.	A	The Assessment Team agrees this element of an authority's progress update submission as an 'improvement model'. This means that they are convinced of the authority's commitment to closing a gap in provision. They will request that they are updated as work on this element progresses.	R	There is a serious gap in provision for this element with no clear explanation of how this will be addressed. The Assessment Team may choose to notify the Keeper on this basis.

6. Progress Update Review (PUR) Template: NHS Borders

Element	Status under agreed Plan 09SEP16	Progress status 06AUG21	Progress status 29APR22	Keeper's Report Comments on Authority's Plan 09SEP16	Self-assessment Update 23DEC20	Progress Review Comment 06AUG21	Self-assessment Update as submitted by the Authority since 06AUG21	Progress Review Comment 29APR22
1. Senior Officer	G	G	G	Update required on any change.	There has been no change to the identified Senior Officer, which remains June Smyth; however June's title is now Director of Planning and Performance.	The Assessment Team thanks NHS Borders for this update which has been noted.	There has been no change to the identified Senior Officer, which remains June Smyth, Director of Planning and Performance.	Thank you for letting the Assessment Team know that there have been no changes to this Element.
2. Records Manager	G	G	G	The <i>Plan</i> states (page 7) that NHS Borders is considering appointing a Corporate Records Manager. The Keeper welcomes this and notes that NHS Borders have committed to inform him if this post is created. Similarly if a Corporate Records Team (page 17) is created, the Keeper should be informed.	<p>Until end 2020 there had been no change to the individual with day-to-day responsibility for implementing the Plan: George Ironside, Senior Health Information Manager. From Jan 2021 this will be Ian Merritt, Information Governance Lead.</p> <p>The Covid pandemic has impacted on our plans for much of 2020.</p> <p>There has been no</p>	<p>Thank you for notification of this change effective from January 2021 which has been noted.</p> <p>The Assessment Team understand that the impact of the Covid-19 pandemic has affected the progress of planned work for many Scottish public bodies, especially NHS Boards.</p> <p>We look forward to hearing if the</p>	<p>As noted in the 2020 Review, Ian Merritt, Information Governance Lead is responsible for the day-to-day implementation of the Records Management Plan following the retirement of George Ironside.</p> <p>Mr Ironside's post has been filled by Susie Thomson who is the Information Governance and Cyber Assurance Manager.</p>	<p>The Assessment Team appreciates this update, and confirmation that Mr Merritt remains the named Key Contact.</p> <p>It is understandable that the pandemic has hampered progress in some areas.</p>

					<p>progress in establishing a Corporate Records manager role. Service reorganisation in 2021 will see this being revisited.</p>	<p>planned service reorganisation progresses the creation of a Corporate Records Manager post.</p>	<p>Progress is now being made in establishing a Corporate Records Manager post within the organisation with the creation of a Job Description. This still requires to be submitted for banding but the ongoing impact of the Covid-19 pandemic continues to dominate the organisation's focus.</p>	<p>The Team look forward to hearing about progress made in the establishment of a Corporate Records Manager post in consecutive PURs.</p>
3. Policy	G	G	G	<p>Update required on any change.</p>	<p>The Records Management policy has been revised and updated. Version 2.3 was approved at the September 2020 meeting of the Information Governance Committee. Amendments are minor and mainly relate to the updated national Scottish Government Health and Social Care Code of Practice (Scotland) 2020 and associated retention periods.</p>	<p>The Assessment Team note that an updated Records Management policy, approved by the Information Governance Committee, has been adopted and thank the NHS Borders for supplying a copy. Updates and reviews in response to revised national guidance ensures information is current and policies are fit for purpose.</p> <p>NHS Borders websites provides access to the updated Records</p>	<p>There has been no further update to the Records Management Policy, which is due to be reviewed in September 2022.</p>	<p>Thank you for confirming that the NHS Borders' RMP is being kept under regular review. Update required on any change.</p>

						Management Policy, nhsb_records_management_policy.pdf (scot.nhs.uk).		
4. Business Classification	A	A	A	<p>NHS Borders have agreed to provide the Keeper with a copy of the master Business Classification Spreadsheet as part of the periodic update/progress report.</p> <p>Clearly the <i>Business Classification Scheme</i> is a work in progress. The Keeper accepts that this major piece of work will take some time to complete and asks that he is routinely updated on progress.</p> <p>The Keeper agrees this element of NHS Borders' Records Management Plan on 'improvement model' terms. This means that the Keeper acknowledges</p>	<p>The NHS Borders Business Classification Scheme is still based on the NHS National Services Scotland template but there has been very little progress on developing it further.</p> <p>This is due in part to lack of resource in the Information Governance team, but also due to awaiting the finalising of the national Business Classification Scheme which is being produced by the national NHS Records Management group in partnership with all NHS Scotland Boards.</p> <p>This document will deliver a "Once for Scotland" approach.</p>	<p>In the agreed Plan the Keeper acknowledged that this work would take some time to progress. It is noted that development of the NHS Borders Business Classification Scheme (BCS) has been unable to advance significantly. The effect of limited staff resourcing to assist in progress is also noted.</p> <p>The Assessment Team are aware that NHS Borders is part of the wider national project to migrate all NHS Boards in Scotland to Microsoft 365 (M365) and that work on both this and associated information governance documentation, including the national Business Classification Scheme, is ongoing.</p>	<p>Version 2 of the national Business Classification Scheme has been issued for comment and the finalised version of this is scheduled for approval at the NHS Scotland Records Management Forum meeting on 16th December.</p> <p>NHS Borders will fully support and adopt this BCS when it has been approved</p>	<p>Thank you for updating the Assessment Team on progress in the implementation of the new version of the national Business Classification Scheme. Its blanket adoption is unlikely to be entirely straightforward, especially in concert with the implementation of M365. However, it is positive to hear that NHS Borders is committed to its implementation.</p> <p>This update will remain at Amber while the implementation of the newly-</p>

				<p>that the authority has identified a gap in their records management provision (the Business Classification Scheme is not fully rolled out) and has put processes in place to close that gap. The Keeper's agreement is conditional on his being kept up-to-date with progress.</p>		<p>We understand this work will be gradual and welcome further updates on progress as the work of the national NHS Records Management Group progresses.</p> <p>This element will remain at Amber.</p>		<p>updated BCS is ongoing. We look forward to updates on this process in consecutive PURs.</p>
5. Retention Schedule	G	G	G	<p>Update required on any change.</p>	<p>Guidance has been issued within NHS Borders to maintain records according to the NHS Scotland Code of Practice. This has been updated following publication of the latest version of the national code in June 2020.</p>	<p>NHS Borders have adopted the Scottish Government Records Management: Health and Social Care Code of Practice (Scotland) 2020 and provided staff with updated retention guidance accordingly. The Assessment Team thank NHS Borders for providing a copy of this document.</p> <p>The transition to M365 will also impact how retention</p>	<p>This situation has not changed. NHS Borders still follows the Retention Periods prescribed in the Records Management: Health and Social Care Code of Practice (2020).</p> <p>The transition to M365 has been slower than hoped but is still progressing. Likewise, the subsequent reduction in email retention is being rolled</p>	<p>Thank you for this update on retention arrangements. Update required on any change.</p>

						<p>periods are applied to electronic records. Local changes to retention periods, such as email retention within mailboxes reducing to 12 months are being gradually introduced as mailboxes are migrated (noted in Element 5 below).</p>	<p>out across the organisation at a slower pace than intended.</p>	
6. Destruction Arrangements	G	G	G	<p>Update required on any change.</p> <p>The Keeper agrees that staff are given guidance on the management/deletion of electronic records and that this may become an automatic function next year. The Keeper request that he is informed when the new functionality becomes available.</p>	<p>The destruction arrangements remain largely unchanged from those in place in 2016. The main change is that use of red bags for confidential papers has been replaced by secure confidential waste cabinets installed in all NHS Borders locations. These are emptied by specialist contractors, Restore, whose operatives shred the contents on site.</p> <p>As NHS Borders migrates each mailbox to the M365 environment the retention period for emails reduces to 12</p>	<p>The Assessment Team acknowledge receipt of the Disposal of Confidential Waste procedure which reflects the stated change in practice for the destruction of hardcopy records and thank NHS Borders for providing a copy.</p> <p>The process for the irretrievable destruction of electronic records will be affected by the migration to M365 (see Element 4 above).</p> <p>For retention periods see Element 5 above.</p>	<p>The destruction arrangements remain as per the December 2020 position.</p> <p>The Disposal of Confidential Waste procedure has received a minor update only, reflecting the change of ownership to Susie Thomson.</p> <div style="text-align: center;">  <p>Disposal of Confidential Waste</p> </div>	<p>Thank you for this update, and the Disposal of Confidential Waste Procedure document provided.</p> <p>Update required on any change.</p>

					<p>months. This time period was agreed with the Executive team and has been announced via messages from the M365 project team in advance of the migration.</p> <p>Similarly, national retention periods are in place for any data that is migrated into the 365 environment.</p>			
7. Archiving and Transfer	A	A	A	<p>The Keeper agrees this element of NHS Borders Records Management Plan under 'improvement model' terms. This means that he acknowledges the authority has identified a gap in provision (the Education Centre, although secure, may not be suitable for the permanent preservation of historical records) and has put processes in place to close that gap. The</p>	<p>Initial discussions were held with Live Borders that runs the Heritage Hub, the home of the Scottish Borders Archive and Local History Service. Attempts to progress this in 2020 have been thwarted by Covid as their key personnel have been redeployed to support other services.</p> <p>Initial discussions have also been held in 2020 with the Archive facility at Edinburgh University as an alternative provider of Archive Services. These are</p>	<p>The Assessment Team acknowledge that the impact of the Covid-19 pandemic has resulted in delays to planned work. However, it appears that negotiations have been underway with Live Borders for several years without agreement. In the agreed Plan the Keeper encouraged 'NHS Borders to pursue such an agreement with urgency'.</p> <p>Notification of discussions with an alternative archive repository, the</p>	<p>George Ironside and Ian Merritt met with Live Borders in September 2021 with the objective of progressing the archiving arrangements. This process, however, is still at a very early stage due to the departure of key staff from both organisations.</p> <p>It is anticipated that one of the priority tasks of the Corporate Records Manager when appointed will be to lead on this important element.</p>	<p>It is positive to hear that some progress has been made in identifying a suitable repository (Live Borders) for the permanent preservation of NHS Borders' historical records. While there is a plan to allocate the task of pursuing a formal agreement to the new Corporate Records Manager, it is</p>

				<p>Keeper's agreement is conditional on a formal agreement being reached between NHS Borders and Live Borders regarding the transfer of historically significant records and him being provided with a copy of that agreement.</p>	<p>at an early stage and the intention is to hold further discussions in 2021</p>	<p>University of Edinburgh, are welcomed as an indication NHS Borders is working towards securing a suitable place for the permanent preservation of their historical records.</p> <p>As preliminary discussions have now taken place with the University of Edinburgh, is it the case that both archive repositories are currently being considered and the most appropriate will be selected? Clarification please.</p> <p>The Assessment Team request updates on progress of these discussions.</p> <p>As work is ongoing to finalise a deposit agreement with a suitable archive this element will remain at Amber.</p>		<p>also noted that this post is yet to be advertised, and it may therefore take several months before the new appointee will be able to pursue this matter.</p> <p>This element will remain at Amber. As indicated, the Assessment Team expects NHS Borders to make this a priority when the new Corporate Records Manager is in post, as limited progress appears to have been made on this element since the Keeper's conditional agreement in 2016.</p>

14. Shared Information	G	G	G	Update required on any change.	<p>NHS Borders is still a partner in the Pan Lothian/Borders Data Sharing Group. Updating of the protocol under which data sharing is carried out to reflect the changes with the introduction of GDPR / DPA 2018 is outstanding.</p> <p>NHS Borders has adopted the standards of the Scottish Government Information Sharing toolkit and utilises the template documents produced in partnership with NHS Scotland. https://www.informationgovernance.scot.nhs.uk/</p>	<p>The Assessment Team would welcome notification of the updated Pan Lothian/Borders Data Sharing Group protocol when it is available.</p> <p>Use of best practice toolkits is welcomed by the Assessment Team. The Scottish Government Information Sharing toolkit does reflect the changes with the introduction of DPA 2018.</p>	<p>NHS Borders continues to follow the best practice toolkits developed by the Scottish Government in conjunction with NHS Scotland.</p> <p>Updating of the Pan Lothian/Borders Data Sharing Protocol has been temporarily paused at the request of one of the partner agencies. It is hoped this, or a replacement protocol, will be implemented during 2022.</p>	<p>Thank you for letting us know that NHS Borders continues to follow the Scottish Government and NHS Scotland's Best Practice Toolkits.</p> <p>We look forward to an update regarding the Pan-Lothian/Borders Data Sharing Protocol review and update in the next PUR.</p>

7. The Public Records (Scotland) Act Assessment Team's Summary

Version

The progress update submission which has been assessed is the one received by the Assessment Team on 11th January 2022. The progress update was submitted by Ian Merritt, Information Governance Lead.

The progress update submission makes it clear that it is a submission for **NHS Borders**.

The Assessment Team has reviewed NHS Borders' Progress Update submission and agrees that the proper record management arrangements outlined by the various elements in the authority's plan continue to be properly considered. The Assessment Team commends this authority's efforts to keep its Records Management Plan under review.

General Comments

NHS Borders continues to take its records management obligations seriously and is working to bring all elements into full compliance.

Section 5(2) of the Public Records (Scotland) Act 2011 provides the Keeper of the Records of Scotland (the Keeper) with authority to revisit an agreed plan only after five years has elapsed since the date of agreement. Section 5(6) allows authorities to revise their agreed plan at any time and resubmit this for the Keeper's agreement. The Act does not require authorities to provide regular updates against progress. The Keeper, however, encourages such updates.

The Keeper cannot change the status of elements formally agreed under a voluntary submission, but he can use such submissions to indicate how he might now regard this status should the authority choose to resubmit its plan under section (5)(6) of the Act.

8. The Public Records (Scotland) Act Assessment Team's Evaluation

Based on the progress update assessment the Assessment Team considers that NHS Borders continue to take their statutory obligations seriously and are working hard to bring all the elements of their records management arrangements into full compliance with the Act and fulfil the Keeper's expectations.

- The Assessment Team recommends authorities consider publishing PUR assessment reports on their websites as an example of continued good practice both within individual authorities and across the sector.

This report follows the Public Records (Scotland) Act Assessment Team's review carried out by

A handwritten signature in blue ink that reads "Iida Saarinen". The signature is written in a cursive style and is positioned above the printed name and title.
