<sup>1</sup> See Appendix 2 of 2001 Population Report.

<sup>2</sup> Includes movements to/from armed forces.

<sup>3</sup> Includes changes in the number of armed forces stationed in Scotland and movements to/from prison.

<sup>4</sup> The 2001 mid-year estimates are based on the corrected health board boundaries. Previously published health board estimates did not conform exactly to the legal health board boundaries. The 2000 mid-year estimates are based on the previously published health board boundaries, with the exception of Greater Glasgow and Lanarkshire. An area of just under 1,700 people which has previously been incorrectly included in the Greater Glasgow estimate has now been added to Lanarkshire. Discrepancies in population which are due to the different boundaries used are accounted for in the "other changes" column.
