The figures for 1920-22 to 1990-92 are taken from graduated life tables prepared by the Government Actuary.
 These figures have been extracted from complete ungraduated annual life tables prepared by the Government Actuary's Department up to 2002-2004 and by the Office for National Statistics for 2003-2005.

These figures are provisional and have been extracted from complete ungraduated annual life tables prepared by the Office for National Statistics.
