

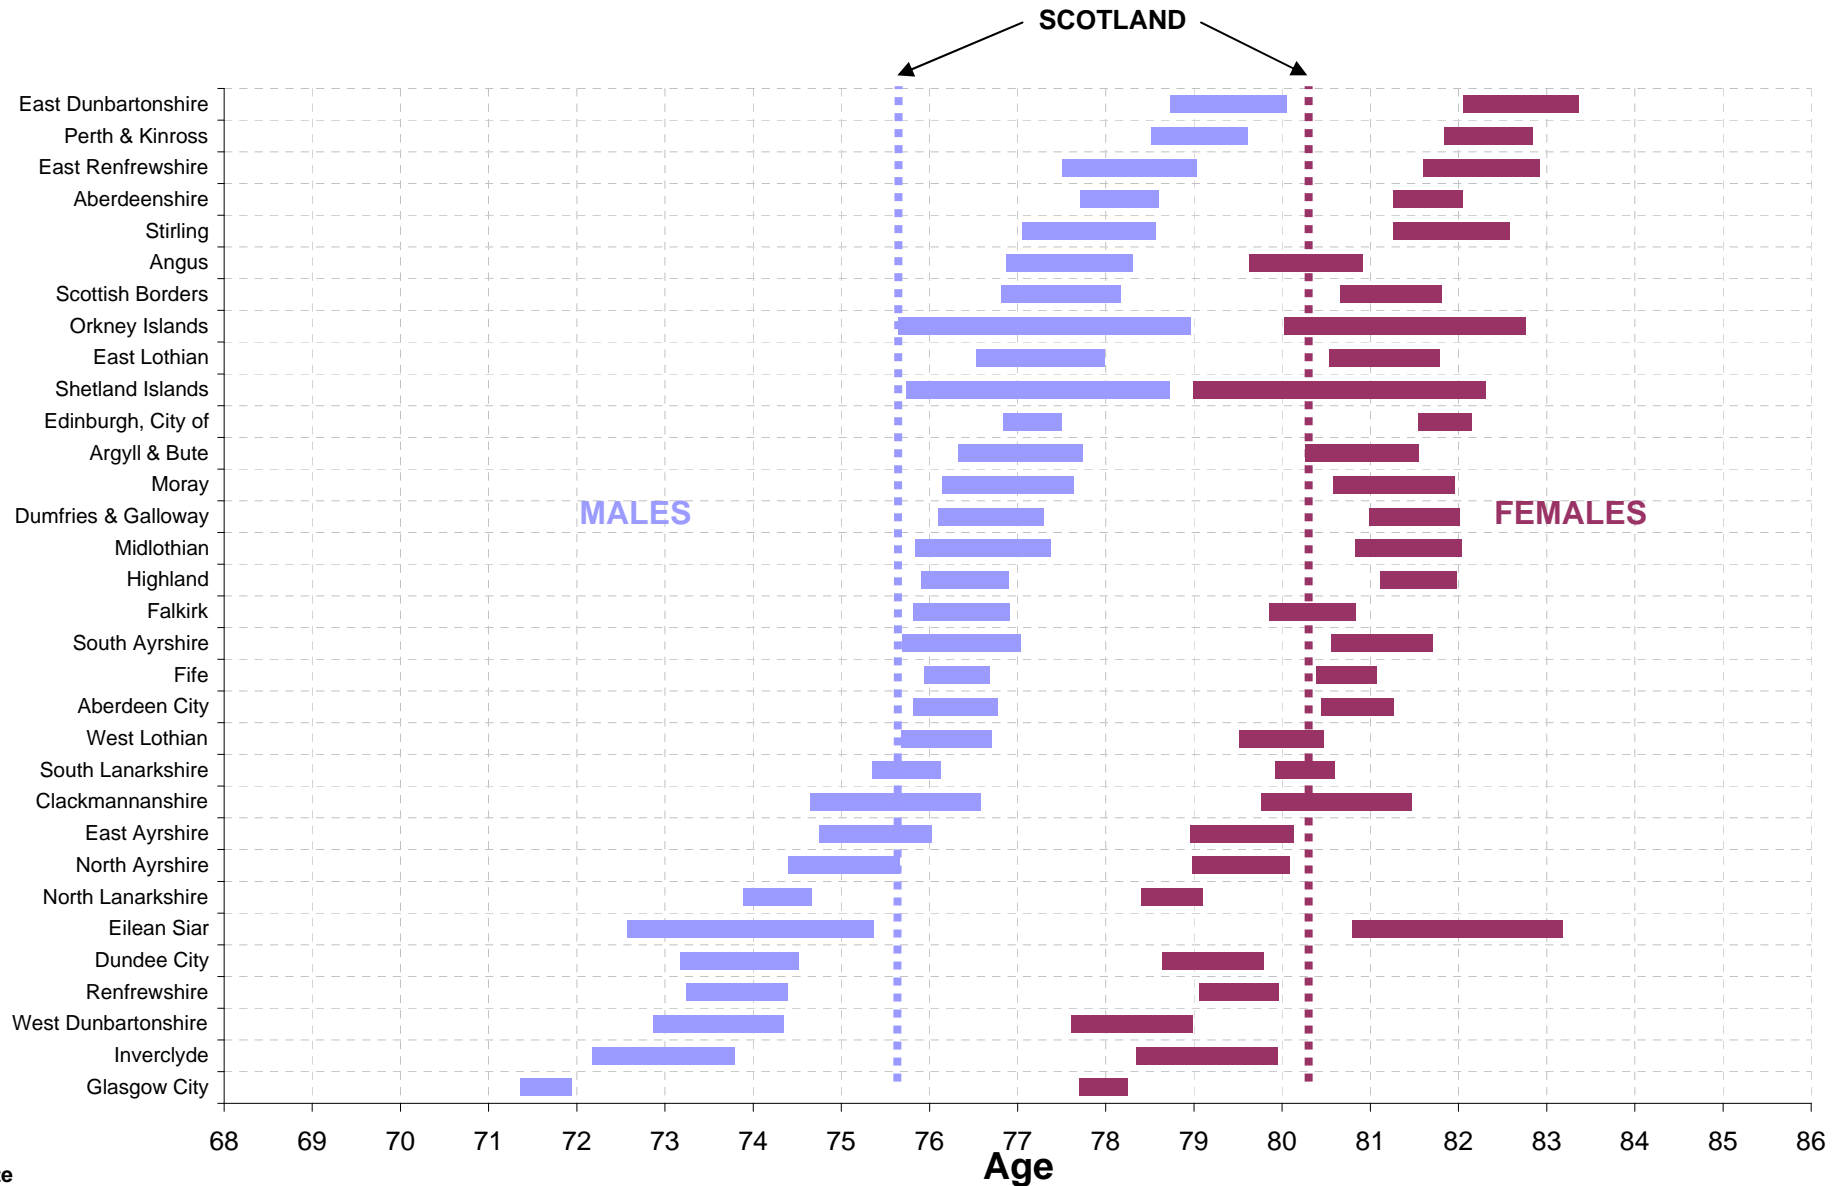

**Figure 4.3: Life expectancy at birth, 95% confidence intervals<sup>1</sup> for Council areas, 2008-2010 (Males and Females)**

**Footnote**

1) Life expectancy at birth is an estimate which is subject to a margin of error. The accuracy of results can be indicated by calculating a confidence interval which provides a range within which the true value underlying life expectancy would lie (with 95% probability).
