

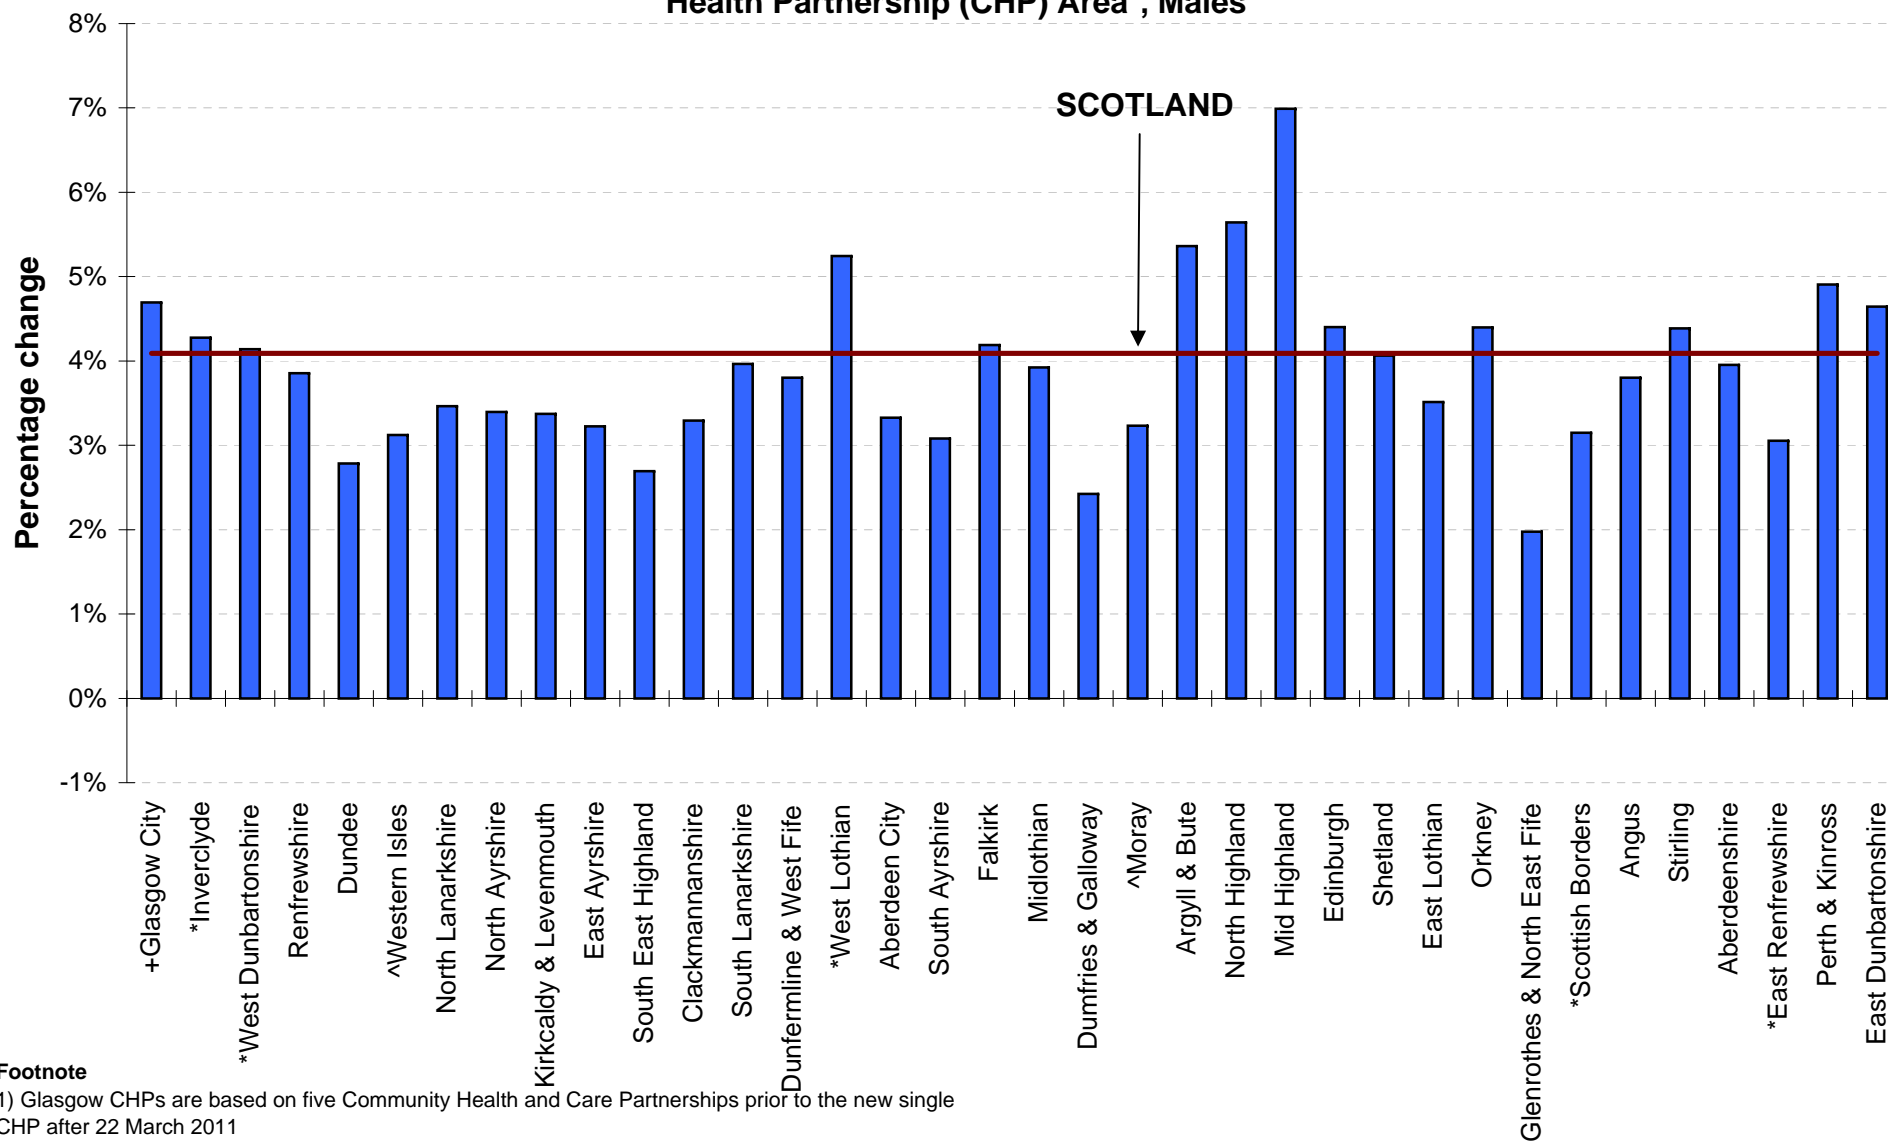

Figure 4.6a: Percentage change in Life expectancy, 1998-2000 to 2008-2010, in Scotland and for each individual Community Health Partnership (CHP) Area¹, Males

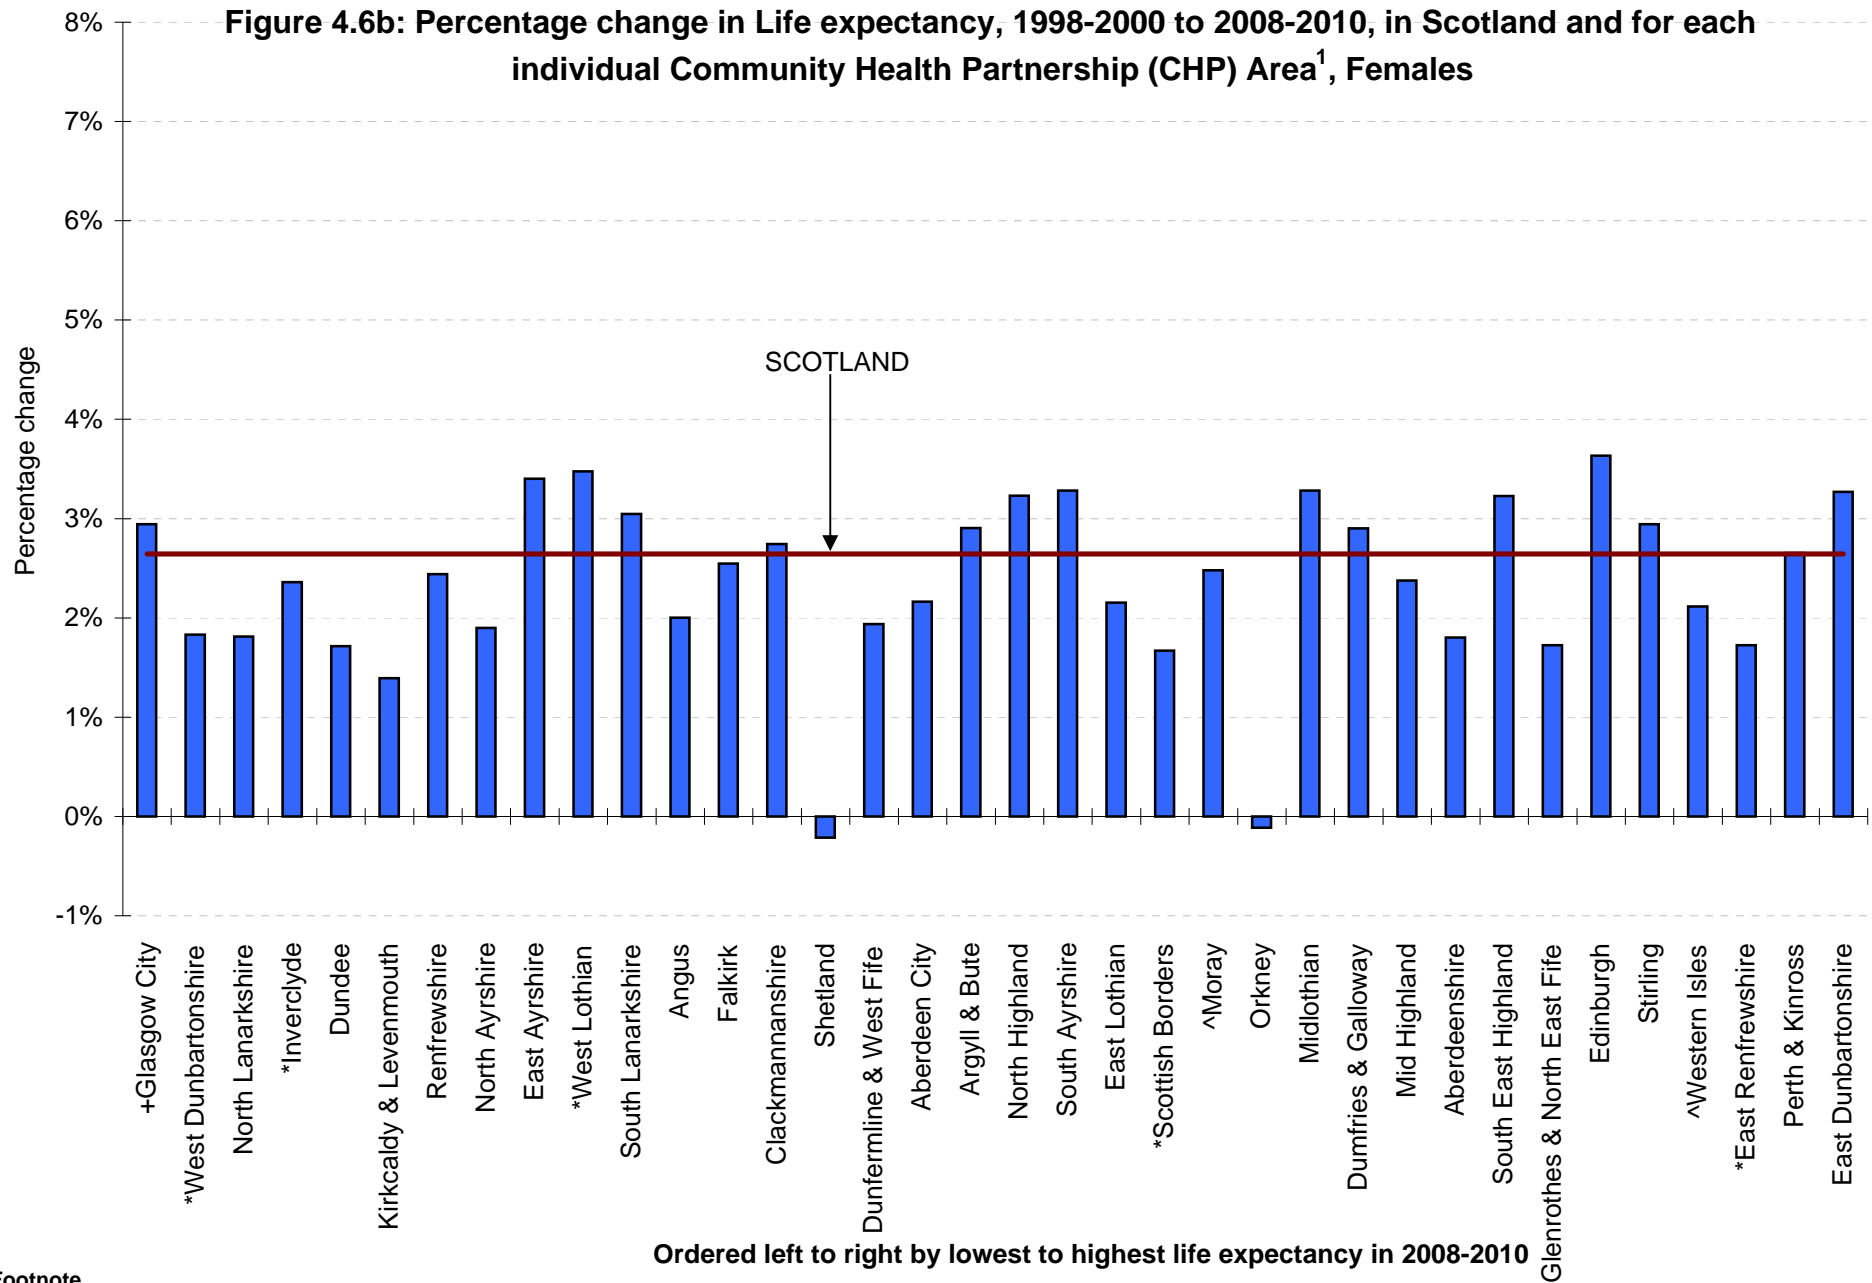

Footnote

1) Glasgow CHPs are based on five Community Health and Care Partnerships prior to the new single CHP after 22 March 2011

Please note the Scotland-level life expectancy estimate shown here is for use only as a comparator for the corresponding sub-Scotland-level figures. The definitive Scotland-level life expectancy estimate (based on interim life tables) is published on the Office for National Statistics website.

Ordered left to right by lowest to highest life expectancy in 2008-2010

Figure 4.6b: Percentage change in Life expectancy, 1998-2000 to 2008-2010, in Scotland and for each individual Community Health Partnership (CHP) Area¹, Females

Footnote

1) Glasgow CHPs are based on five Community Health and Care Partnerships prior to the new single CHP after 22 March 2011.

Please note the Scotland-level life expectancy estimate shown here is for use only as a comparator for the corresponding sub-Scotland-level figures. The definitive Scotland-level life expectancy estimate (based on interim life tables) is published on the Office for National Statistics website.
