Footnotes

- 1) Live births only, prior to 1939. The 'Multiple births' columns show the number of multiple birth events rather than the number of babies born. The 'live births' columns show the number of babies.
- 2) The Still-Birth (Definition) Act 1992 re-defined stillbirths, from 1 October 1992, to include losses between 24 and 27 weeks gestation.
- 3) Rate per 1,000 population (2011 rates based on 2010 mid-year population estimates).
- 4) Rate per 1,000 live and still births.
- 5) Rate per 1,000 live births.
- 6) Figures for 1988 onwards have been revised from those published in previous editions of this table.
- 7) The Civil Partnership Act 2004 came into effect in December 2005 so an annual average for 2001-05 would not be meaningful.
- 8) Provisional.

Footnotes

- 1) Live births only, prior to 1939. The 'Multiple births' columns show the number of multiple birth events rather than the number of babies born. The 'live births' columns show the number of babies.
- 2) The Still-Birth (Definition) Act 1992 re-defined stillbirths, from 1 October 1992, to include losses between 24 and 27 weeks gestation.
- 3) Rate per 1,000 population (2011 rates based on 2010 mid-year population estimates).
- 4) Rate per 1,000 live and still births.
- 5) Rate per 1,000 live births.
- 6) Figures for 1988 onwards have been revised from those published in previous editions of this table.
- 7) The Civil Partnership Act 2004 came into effect in December 2005 so an annual average for 2001-05 would not be meaningful.
- 8) Provisional.
