**Footnotes**

1) The Still-Birth (Definition) Act 1992 re-defined stillbirths, from 1 October 1992, to include losses between 24 and 27 weeks gestation. This table gives figures for all gestations of 24 weeks or longer, figures for the old definition are available on request.

3) Rate per 1,000 population (minor corrections have been made to some birth and death rates for 2004 and 2008 and to some marriage rates for 2004).

4) Rate per 1,000 live and still births.

6) A note on the page which lists all the quarterly tables explains the breaks between 2011 and 2012 in the 'per 1,000 population' rates.

7) Provisional.
