

## Most Common Surnames

### Surnames occurring most often in Scotland's registers of Births, Marriages and Deaths

Counting only the surname of the child for births,  
the surnames of both bride and groom for marriages,  
and the surname of the deceased for deaths

NB: the surnames from these registers may not be representative of the surnames of the population of Scotland as a whole, as

(a) they include the surnames of non-residents who were born / married / died here;

(b) they exclude the surnames of residents who were born / married / died elsewhere; and

(c) some age-groups have very low birth, marriage and death rates; others account for most births, marriages and deaths.
