

Deaths involving Covid-19 rose in the last month

As of 15th August 2021, 10,464 deaths involving Covid-19 have been registered.

Deaths where Covid-19 was mentioned were above 40 each week for the last 5 consecutive weeks.

Deaths involving Covid-19

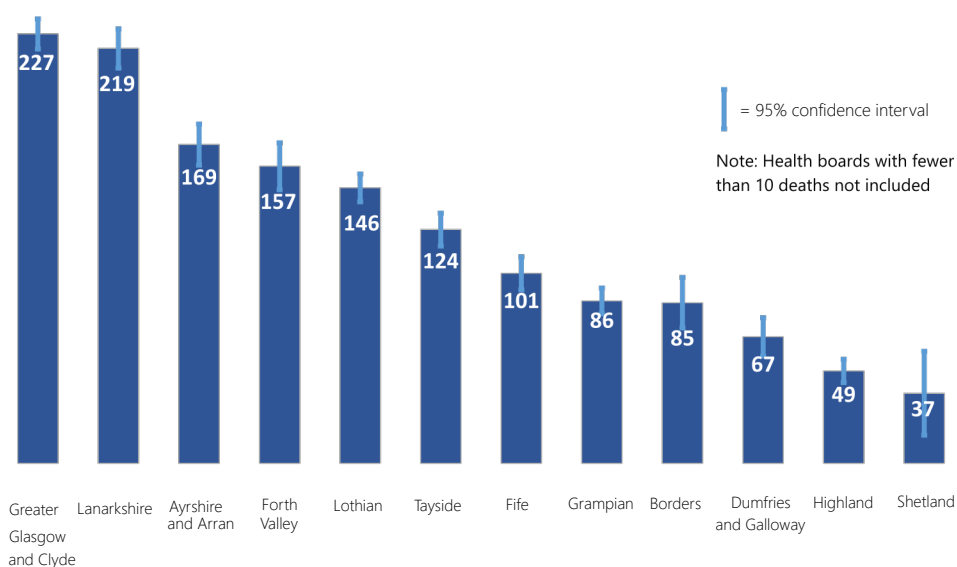

Death rates have varied by health board since the start of the pandemic

Greater Glasgow and Clyde and Lanarkshire had the highest rates of deaths involving Covid-19 per 100,000 population.

Over the period of the pandemic, the difference between those health boards with the highest and lowest rates has remained large.
