

Table CS1: Consistent series of drug-related deaths - 'extra' deaths and which of the drugs that were present for each of the 'extra' deaths meant that they were counted in the consistent series: 2000 to 2014

	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014
Drug-related deaths: consistent series¹	293	339	388	330	365	346	430	474	590	570	512	606	604	556	616
Drug-related deaths: standard definition²	292	332	382	317	356	336	421	455	574	545	485	584	581	527	613
Extra deaths counted in the consistent series³	1	7	6	13	9	10	9	19	16	25	27	22	23	29	3
<i>of which:</i>															
Mephedrone ⁴ present	0	0	0	0	0	0	0	0	0	0	3	0	0	0	0
Phenazepam ⁵ present	0	0	0	0	0	0	0	0	0	0	0	1	1	0	0
Tramadol ⁶ present	0	5	2	12	8	9	9	16	14	19	17	12	17	27	3
Zopiclone ⁶ present	1	2	4	1	1	1	0	4	2	6	7	9	7	1	0
None of the above, but one or more other substances which are now controlled were present ⁷	0	0	0	0	0	0	0	0	0	1	0	0	1	1	0

Footnotes

- 1) Broadly speaking, counting deaths on the basis of the classification of the drugs at the end of the latest year which is covered by the publication. refer to Annex F for the full definition.
- 2) Broadly speaking, counting deaths on the basis of the classification of the drugs at the time of death. refer to Annex A for the full definition.
- 3) For example, deaths which are counted in the consistent series but are not counted in the standard definition.
- 4) Mephedrone has been a controlled substance with effect from 16 April 2010, so subsequent deaths involving it are counted in the 'standard definition' figures (and not 'extra' deaths).
- 5) Phenazepam has been a controlled substance with effect from 13 June 2012, so subsequent deaths involving it are counted in the 'standard definition' figures (and not 'extra' deaths).
- 6) Tramadol and zopiclone have been controlled substances with effect from 10 June 2014, so subsequent deaths involving either (or both) of them are counted in the 'standard definition' figures (and not 'extra' deaths).
- 7) For example, one or more of APB, API and BZP were present.
