2013	0.05	0.20	0.27	0.16	0.06	0.15	0.10
2014	0.07	0.22	0.32	0.18	0.06	0.17	0.11
2015	0.04	0.23	0.37	0.23	0.09	0.19	0.13
2016	0.06	0.27	0.49	0.27	0.10	0.24	0.16
average of rates for 2012 to 2016	0.06	0.24	0.35	0.20	0.07	0.18	0.12

Footnotes

1) Some other tables which provide figures by age-group give the number of drug-related deaths of people who were aged under 25. However, this column's figures are for ages 15-24, inclusive, as there are very few drug-related deaths of people aged 0-14.

2) Some other tables which provide figures by age-group give the number of drug-related deaths of people who were aged 55 and over. However, this column's figures are for ages 55-64, inclusive, as there are relatively few drug-related deaths of people aged 65 and over.

3) Including ages 0-14 and 65+.
