**Footnotes**

1) Revisions or corrections to local authority level figures will have an impact on Scotland level figures for the year affected. Any such revisions or corrections will be flagged with a footnote attached to the local authority's name. Where there has been a revision or correction to more than one local authority's figures in the same year, the impact on the Scotland level figure will be a combination of these changes.

2) Household estimates are rounded to the nearest whole number, percentages are rounded to one decimal place. Local authority figures may not add up to the Scotland total due to rounding.

Figures for 1991 to 2001 are based on the number of households recorded in the 1991 and 2001 Censuses and the mid-year population estimates.

Figures for 2002 onwards are based on the number of occupied dwellings (Table 9), adjusted from September to June and then adjusted by the difference between the number of households recorded in the 2001 Census and the number of occupied dwellings in 2001.
