	TAYplan	2.15	2.11	2.08	2.06	2.04	2.02	-0.01	-0.13	-6%

Footnotes

1) This is the 2014-based principal population projection, published on the National Records of Scotland (NRS) website.

2) The average household size is calculated by dividing the private household population by the total number of households for each year.

3) Average annual change is the result of dividing the absolute change (before rounding) by the number of years of the projection.

Household figures are rounded to the nearest whole number.
