Last updated: 25 September 2013

## General Details

[Return to contents page](#)

<b>Dataset Title:</b>	Total net migration by NHS Board areas by age group and sex, 2001/02 to most recent
<b>Time Period of Dataset:</b>	2001/02 to latest
<b>Geographic Coverage:</b>	Scotland and NHS Board areas
<b>Supplier:</b>	National Records of Scotland (NRS)
<b>Department:</b>	Demography Division, Population and Migration Statistics Branch

## Methodology:

The migration estimates are those associated with the mid-year population estimates for 2001-latest.

For more information on how population and migration estimates are produced go to the methodology sections within the migration and population areas of the NRS website. Some commentary can be found in the mid-year estimates and the Annual Review of Demographic Trends publications for the relevant years.

Note: Figures include the adjustment made to the 2002-2006 population estimates to account for unmeasured migration. Figures include asylum seekers.

From 1 April 2006 responsibility for NHS Argyll & Clyde was split between NHS Greater Glasgow (now known as Greater Glasgow and Clyde) and NHS Highland.

The tables on the NRS website generally show the old NHS Board areas. This is because it is often not possible to create equivalent tables for the new NHS Board areas using the available data.

Note:

The mid-year population estimates and migration estimates for 2002 to 2010 are scheduled for revision following the 2011 Census and are to be published in December 2013.

Total net migration by NHS Board area by age group and sex, 2001/02
