2011/12	Migration flows between Council areas, 2011/12

Last updated: 25 September 2013

General Details

Dataset Title:	Migration flows between Council areas, 2001/02 to most recent
Time Period of Dataset:	2001/02 to 2011/12
Geographic Coverage:	Council areas
Supplier:	National Records of Scotland (NRS)
Department:	Demography Division, Population and Migration Statistics Branch

Methodology:

The migration estimates are those associated with the mid-year population estimates for 2001-latest.

For more information on how population and migration estimates are produced go to the methodology sections within the migration and population areas of the NRS website. Some commentary can be found in the mid-year estimates and the Annual Review of Demographic Trends publications for the relevant years.

Note:

Figures exclude the adjustment made to the 2001/02 to 2005/06 population estimates due to unmeasured migration.

Between 2001/02 and 2005/06 moves to and from the UK and to and from overseas were grouped together and it is not possible to distinguish between them.

In 2006/07 the methodology was changed allowing the migration within the UK to be identified separately to migration to and from overseas.

The mid-year population estimates and migration estimates for 2002 to 2010 are scheduled for revision following the 2011 Census and are to be published in December 2013.

Migration flows^{1,2} between Council areas, 2001/02

Footnotes

1) These figures do not include the migration error which was assigned following the 2001 Census. It is likely that most of this error is contained in international migration figures, and hence has little effect on internal migration within Scotland. Further information on the migration error can be obtained from the National Records of Scotland website. Also they do not include rounding adjustments

2) Outside Scotland includes rest of UK moves and international moves.

Footnotes

1) These figures do not include the migration error which was assigned following the 2001 Census. It is likely that most of this error is contained in international migration figures, and hence has little effect on internal migration within Scotland. Further information on the migration error can be obtained from the National Records of Scotland website. Also they do not include rounding adjustments.

2) Outside Scotland includes rest of UK moves and international moves.

Footnotes

1) These figures do not include the migration error which was assigned following the 2001 Census. It is likely that most of this error is contained in international migration figures, and hence has little effect on internal migration within Scotland. Further information on the migration error can be obtained from the National Records of Scotland website. Also they do not include rounding adjustments.

2) Outside Scotland includes rest of UK moves and international moves.

Footnotes

1) These figures do not include the migration error which was assigned following the 2001 Census. It is likely that most of this error is contained in international migration figures, and hence has little effect on internal migration within Scotland. Further information on the migration error can be obtained from the National Records of Scotland website. Also they do not include rounding adjustments.

2) Outside Scotland includes rest of UK moves and international moves.

3) The Grand total row was revised in August 2010 to correct errors in the previous version. Only 2005-06 was affected.
