2011/12	Migration flows between NHS Board areas, 2011/12

Last updated: 25 September 2013

General Details

Dataset Title:	Migration flows between NHS Board areas, 1995/96 to most recent
Time Period of Dataset:	1995/96 to latest
Geographic Coverage:	NHS Board areas
Supplier:	National Records of Scotland (NRS)
Department:	Demography Division, Population and Migration Statistics Branch

Methodology:

The migration estimates are those associated with the mid-year population estimates for 1996-latest.

They are taken from the National Health Service Central Register (NHSCR).

It is assumed that migrants don't re-register with a new GP immediately on moving and so the data is lagged to account for this.

From 1 April 2006 responsibility for NHS Argyll & Clyde was split between NHS Greater Glasgow (now known as Greater Glasgow and Clyde) and NHS Highland.

The tables on the NRS website generally show the old NHS Board areas. This is because it is often not possible to create the same data for the new NHS Board areas using the available data.

For more information on how population and migration estimates are produced go to the methodology sections within the migration and population areas of the NRS website. Some commentary can be found in the mid-year estimates and the Annual Review of Demographic Trends publications for the relevant years.

Note:

The mid-year population estimates and migration estimates for 2002 to 2010 are scheduled for revision following the 2011 Census and are to be published in December 2013.

Migration flows between NHS Board areas, 1995/96

Footnotes

1) This table shows the pre-2006 NHS Board areas. (For more information refer to the metadata tab or the methodology section on the National Records of Scotland website.)

2) This table was amended on 20 November 2010 to correct the labelling of the origin and destination areas. Previously origin areas were labelled destination and destination areas labelled origin. Only data for 2008/09 was affected.
