

**Appendix C - Number of persons of 'Other ethnic group' in output and tick and text databases by detailed ethnic code**

Note that the description of each code is made up in part according to the prefix (e.g. the description of a code of 1xx begins 'White ...', a code of 2xx begins 'Mixed ...', etc.) The codes 5xx are denoted 'Chinese or Other ...' because the descriptions are based on the Ethnicity question for England and Wales where the Chinese tick box appeared in Section E.
