## Babies' First Names 2011

Published on 20 December 2011

---

A National Statistics publication for Scotland

National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.

These statistics were recently assessed by the UK Statistics Authority and are designated as National Statistics subject to meeting the requirements set out in the [Assessment of Compliance with the Code of Practice for Official Statistics](#) report, available on the UK Statistics Authority's website.

**NATIONAL RECORDS OF SCOTLAND** joins together

The following more detailed information may be downloaded from our website:

- the top 100 boys' and girls' birth names included in the statistics for 2011, together with changes since 2010:
  - in order of popularity; and
  - in alphabetic order;
- a set of tables giving the top ten boys' and girls' names for each of the 32 Scottish local authority areas;
- a full list of all first names registered in Scotland by late November 2011.

## Commentary

### Boys' Names

**Jack** has stayed in first place as the most popular boys' name for new babies. **Lewis**, **James** and **Logan** remain in second, third and fourth places respectively. **Ethan** (up 6 places to 5<sup>th</sup>), **Alexander** (up 4 places to 8<sup>th</sup>) and **Harry** (up 7 places to 9<sup>th</sup>) are new entrants to the top 10. **Charlie** (up 8 places to 16<sup>th</sup>), **Riley** (up 22 places to 17<sup>th</sup>), **Dylan** (up 5 places to 18<sup>th</sup>) and **Aiden** (up 2 places to 20<sup>th</sup>) are new entrants in the top 20. Between them, Jack and Lewis have been the top two boys' names for the past thirteen consecutive years. Jack has been number one (with Lewis second) in nine of those years, with Lewis top (and Jack second) for the other four.

**Mason** (up 24 places to 31<sup>st</sup>), **Leo** (up 19 places to 39<sup>th</sup>), **Jay** (up 3 places to 48<sup>th</sup>) and **Harris** (up 17 places to 49<sup>th</sup>) are new entrants in the top 50. Other names making significant advances in the top 50 include **Max** (up 7 places to 26<sup>th</sup>), **Rory** (up 6 places to 32<sup>nd</sup>) and **Jacob** (up 8 places to 38<sup>th</sup>). Lower down the top 100, **Aidan** (up 14 places to 57<sup>th</sup>), **Harrison** (up 14 places to 74<sup>th</sup>) and **Kaiden** (up 14 places to 76<sup>th</sup>) also make advances. New names reaching the top 100 include **Ruaridh** (up 45 places to 85<sup>th</sup>) and **Lennon** (up 16 places to 96<sup>th</sup>).

There have been reductions in popularity for **Ross** (down 27 places to 76<sup>th</sup>), **Sean** (down 14 places to 82<sup>nd</sup>), **Declan** (down 17 places to 98<sup>th</sup>). Names dropping out of the top 100 are **George**, **Alex**, **Calvin**, **Craig** and **Kenzie**.

By late November 2011, nearly 28,000 boys had been registered, with more than 3,000 different first names being used. The top 50 names accounted for 45 per cent of the total. Nearly 1,900 boys were given unique (for 2011) first names.

A full list of all first names registered by late November 2011 may be downloaded from our website.

## Girls' Names

For the seventh year in a row, **Sophie** is the most popular girls' name for new babies. **Lily** climbs seven places to second place whilst **Ava** stays in third. There is one new entrant to the top ten – **Jessica** (up 3 places to 8<sup>th</sup>). There are three new entrants in the top twenty – **Millie** and **Sophia** (up 9 and 25 places respectively to joint 18<sup>th</sup>) and **Kayla** (up 7 places to 20<sup>th</sup>).

**Lilly** (up 27 places to 42<sup>nd</sup>), **Molly** (up 7 places to 45<sup>th</sup>), **Poppy** (up 5 places to 46<sup>th</sup>) and **Lacey** (up 6 places to 49<sup>th</sup>) are new entrants in the top 50 whilst **Layla** (up 11 places to 37<sup>th</sup>) and **Isabella** (up 8 places to 40<sup>th</sup>) also make significant advances.

**Sofia** (up 24 places to 60<sup>th</sup>) and **Kara** (up 21 places to 75<sup>th</sup>) are among the climbers within the top 100 whilst **Gracie** (up 14 places to 88<sup>th</sup>), **Lara** (up 11 places to 91<sup>st</sup>) and **Jasmine** (up 18 places to 93<sup>rd</sup>) are among the new entrants.

Fallers within the top 50 include **Niamh** (down 12 places to 41<sup>st</sup>) and **Aimee** (down 15 places to 48<sup>th</sup>). Further down the top 100 **Skye** (down 16 places to 53<sup>rd</sup>), **Nicole** (down 17 places to 80<sup>th</sup>) and **Lucie** (down 18 places to 88<sup>th</sup>) were also less popular than last year.

**Nieve**, **Courtney** and **Cerys** are among those dropping out of the top 100 in 2011.

By late November 2011, more than 26,000 girls had been registered, with more than 4,000 different names being used. The top 50 girls' names accounted for 43 per cent of the registrations, and more than 2,600 girls in Scotland were given unique (for 2011) first names.

A full list of all first names registered by late November 2011 may be downloaded from our website.

## Changing Trends in Naming Babies

For both boys and girls, the range of names used has been consistently widening over the last 100 years. Parents are increasingly selecting names which are different. The following table illustrates this trend.

**Table B Top ten names, as a percentage of all names, selected years, Scotland**

	Boys	Girls
<b>1900</b>	68.4	58.1
<b>1950</b>	53.3	36.3
<b>1975</b>	32.6	20.2
<b>2000</b>	21.7	20.4
<b>2011</b>	13.9	15.5

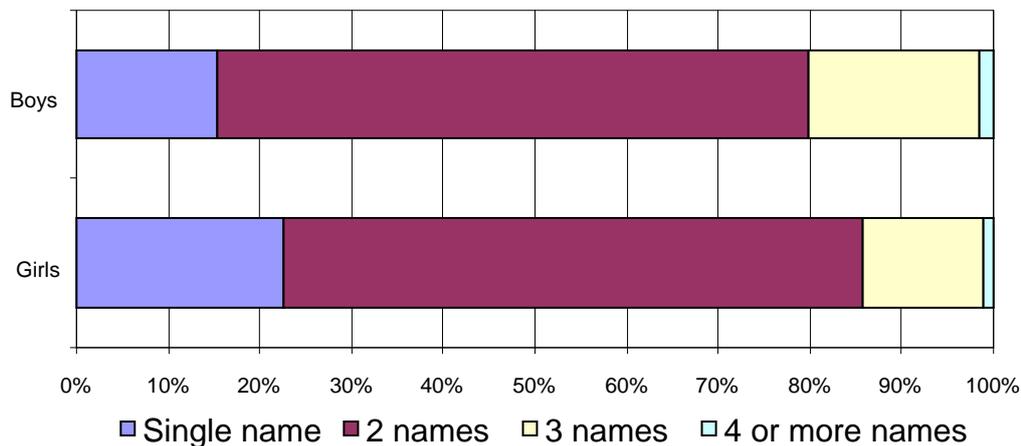

Another aspect of the changing range of names is an increasing variation in spelling. The tables presented here count different spellings separately. If combined, **Callum/Calum** would be in fourth place and **Aimee/Amy** would be in eighth.

## Number of Forenames

### Additional names

The number of forenames given in the births counted in the statistics for 2011 is summarised in the chart below. Eighty-five per cent of boys and seventy-seven per cent of girls registered in 2011 have more than one forename.

**Figure A Number of forenames, Scotland 2011**

The following table shows the relative popularity of second names:

**Table C Most popular second forenames, Scotland, 2011**

Boys			Girls		
Rank	Name	Count	Rank	Name	Count
1	James	2113	1	Elizabeth	958
2	John	1436	2	Rose	842
3	William	983	3	Louise	686
4	Alexander	876	4	Grace	542
5	David	828	5	Jane	477
6	Robert	700	6	Margaret	462
7	Thomas	636	7	Anne	430
8	Andrew	494	8	Catherine	360
9	Michael	422	9	Mary	348
10	George	396	10	Ann	331
11	Joseph	284	11	May	306
12	Scott	256	12	Marie	247
13	Peter	238	13	Isabella	215
14=	Ian	208	14	Helen	210
14=	Paul	208	15	Sarah	198
16	Jack	189	16	Jean	181
17=	Alan	183	17	Lily	142
17=	Christopher	183	18	Mae	135
19	Patrick	178	19	Anna	124
20	Edward	167	20	Maria	121

It is clear that second names are more “traditional”, reflecting the names of previous generations in many cases. There are few changes in the lists of second names from year to year, with **James** and **Elizabeth** being consistently popular. In the statistics for 2011 the top ten second names for boys and girls are the same as the previous five years with just a few minor changes in ranking.

### Regional variations

**Jack** was the top boys’ name in 20 council areas, whilst **James** was top in 4 areas. **Sophie** was the most popular girls’ name in 14 council areas, whilst **Lily** was top in 5 areas.

The top ten names in each Council area can be downloaded from our website.

## Notes

- By law, all births have to be registered, and the records sent in by local registrars to the General Register Office for Scotland. These records allow the production of tables showing the most popular first forenames, not just for a section of the population or those announced in a particular newspaper, but for all new babies born in Scotland.
- All of the information for 2011 contained in these tables is provisional. It is based on births registered up to the 28th of November 2011. The information for 2010 contained in this paper is for the full year, and therefore varies from that contained in last year's paper.
- The rankings were based on the first forename recorded on the birth register.
- Different spellings, e.g. Stephen, Steven, were counted separately.
- Accents were ignored.

## Notes on statistical publications

### National Statistics

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics (available on the [UKSA](#) website).

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

### National Records of Scotland

From 1 April 2011, the General Register Office for Scotland (GROS) merged with the National Archives of Scotland to become the National Records of Scotland (NRS). The GROS website will remain active until it is replaced by a new website for NRS.

We, the National Records of Scotland, are a non-ministerial department of the devolved Scottish Administration. Our aim is to provide relevant and reliable information, analysis and advice that meets the needs of government, business and the people of Scotland. We do this as follows.

- Preserving the past – We look after Scotland’s national archives so that they are available for current and future generations, and we make available important information for family history.
- Recording the present – At our network of local offices, we register births, marriages, civil partnerships, deaths, divorces and adoptions in Scotland.
- Informing the future – We are responsible for the Census of Population in Scotland which we use, with other sources of information, to produce statistics on the population and households.

You can get other detailed statistics that we have produced from the [Statistics section](#) on the NRS/GROS website. Statistics from the 2001 Census are available from Scotland’s Census Results On-Line ([SCROL](#)) website and the [Census section](#) of the NRS/GROS website.

We also provide information about [future publications](#) on our website. If you would like us to tell you about future statistical publications, you can register your interest on the Scottish Government [ScotStat](#) website.
