

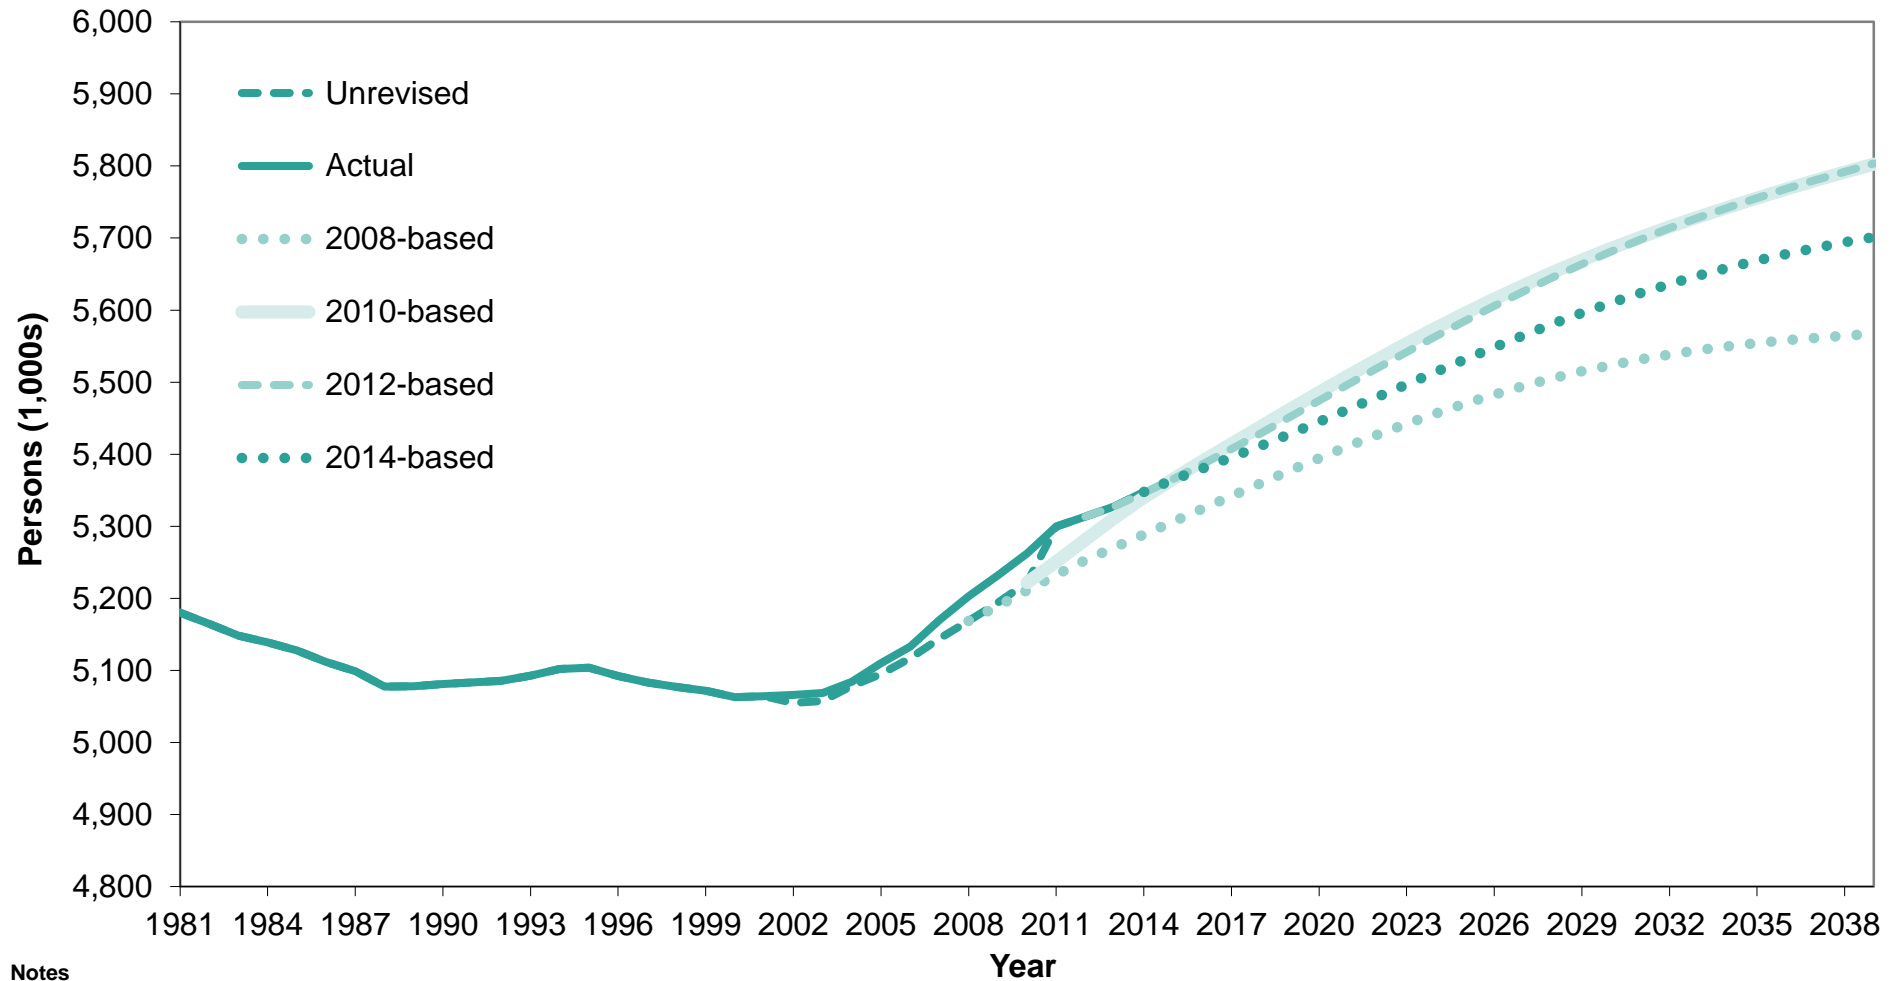

Figure 10: Actual and projected total population compared with previous projections, 1981-2039

Notes

This graph does not start at zero.

The mid-year population estimates for 2002-2010 were revised following the 2011 Census.

The 2008 and 2010-based population projections were based on unrevised population estimates and vary from the revised population estimates in this period.
