**Footnotes**

1) Live births only, prior to 1939. Multiple births figures for twins and triplets etc are the numbers of multiple birth events rather than the number of babies who were live born and/or stillborn. See also the more detailed footnote on this matter in Table

2) Refer to Notes and Definitions for change in definition of stillbirth that took place in 1992.

3) Rate per 1,000 population.

4) Rate per 1,000 live and still birth

5) Rate per 1,000 live births.

**Footnotes**

3) Rate per 1,000 population.

6) The Civil Partnership Act 2004 came into force in the UK on 5 December 2005, so annual averages for 2001-05 would be meaningless.

7) Same sex marriages came into effect on 16 December 2014, so annual averages for 2011-15 would be meaningless.
