

Table 1c: Census 'White/non-White' by Death Registration 'White/non-White' - for all deaths which were registered in 2012, 2013 or 2014 - sum of values shown in Table 1b

Death Registration records for 2012 to 2014, inclusive

	Death Registration ethnicity				Total 'Not provided to "non-White'	Number not counted because of 'suppression' of values of 1, 2 or 3
	All	Not provided	White	non-White ¹		
All Death Registrations in 2012, 2013 or 2014	163,876	6,644	156,309	923	163,876	0
Census ethnicity						
No matching Census record found (or no code in Census)	17,609	1,183	16,123	299	17,605	4
White	145,313	5,329	139,884	54	145,267	46
non-White*	952	127	273	483	883	69
Total of 'No matching' to 'non-White'	163,874	6,639	156,280	836	163,755	
Number not counted because of 'suppression' of values of 1, 2 or 3 in Table 1	2	5	29	87	adds =>	adds down 119 121

Footnote

1) 'non-White' includes 'Mixed or Multiple ethnic group' and 'Other ethnic group'.

Death registration records which could not be matched to a census record are counted on the 'no matching census record' row.

These figures were produced by adding up the numbers that appear in Table 1b, with values shown there as '.' counted as '0'. Therefore, some figures are slightly too small, because they do not include any contribution from values of 1, 2 or 3 that were shown as '.' in Table 1. The 'number not counted' row and column indicate the scale of the resulting under-counting.
