

**Table 3: Census ethnicity and Death Registration ethnicity: number and percentage counted consistently covering only the types of case for which the comparison should be the most reliable and for which the Death Registration record provided "ethnicity" information**

Death registration records for 2012 to 2014, inclusive, for which all of the following conditions apply

- (a) high quality of match of Death Registration data to Population Spine
- (b) high quality of match of Census data to Population Spine
- (c) ethnicity information was obtained from the Census (without imputation)
- (d) the death was registered by the deceased's spouse/partner, parent, child or sibling
- (e) the death registration record provided 'ethnicity' information
