

Table 4 - Census ethnicity, by whether or not the ethnicity was provided when the death was registered

Death Registration records for 2012 to 2014, inclusive for which both of the following conditions apply:

(a) they were matched to Census records via the population spine

(b) the Census had information about the person's ethnicity (which was imputed in a small proportion of cases)

Footnotes

1) no numbers are given for the ethnicities for which fewer than 20 of those deaths had that ethnicity recorded in the Census.

2) ethnicity according to the Census: the only available clue as to what might have been given as the deceased's ethnicity, had that been provided when the death was registered.
