

Table 5: Deaths registered and whether the ethnicity of the deceased was provided

Death registration records for 2012 to 2015, inclusive so figures have been produced for 2015 as well

Year of registration of death	Total number of deaths registered (1)	Number of deaths for which the person who registered the death was			Hence: deaths for which ethnicity was provided (%) (4) as % of (1)
		not willing to provide the ethnicity of the deceased (2)	unable to provide the ethnicity of the deceased, (because he/she did not know it) (3)	willing and able to provide the ethnicity of the deceased (4)	
2012	54,937	1,639	231	53,067	96.6
2013	54,700	1,950	229	52,521	96.0
2014	54,239	2,291	304	51,644	95.2
2015	57,579	2,719	345	54,515	94.7

Note
 NB: this table analyses only information which was collected when deaths were registered
 (this could be done because it does not require anything obtained via links to the 2011 Census records)
